

GR 4 MATHEMATICS

Performance Level: DOES NOT MEET PROFICIENCY

Test Scaled Score: 730

Performing at the **Does Not Meet Proficiency level** typically suggests an **inconsistent ability** to demonstrate a basic understanding of (1) whole numbers, decimal numbers ending in 0.5, halves, and fourths, including recognizing, matching, and comparing values using words, models, and symbols; identifying multiples of 10; (2) adding, subtracting, multiplying, or dividing whole numbers with a solution of 40 or less; adding and subtracting wholes, halves, and fourths; recognizing and counting coins up to 50 cents; (3) recognizing simple geometric shapes; measuring in inches and centimeters; telling time to the nearest whole and half hour; measuring weight and area; and (4) identifying and extending patterns and interpreting data in picture and bar graphs.

The item descriptor for each test question on this Gr 4 Mathematics test are grouped by reporting category and shown below.

- ✓ Student answered item correctly.
- ✗ Student answered item incorrectly or did not provide a response.

Reporting Category	
Number, Number Sense, Computation, and Estimation	
Correct/ Incorrect	Item Descriptor
✓	Match a number name to its numeral. (VESOL M-4.1)
✗	Match an array to a multiplication problem. (VESOL M-4.8)
✗	Solve a practical problem involving whole numbers, halves, and fourths from 0 through 20 by subtracting. (VESOL M-4.13)
✗	Solve a practical problem whose product is 40 or less. (VESOL M-4.11)
✗	Solve a division problem using numbers 1 through 10. (VESOL M-4.10)
✗	Find the value of a set of coins. (VESOL M-4.14)
✗	Compare whole and/or decimal numbers using words or symbols. (VESOL M-4.6)
✗	Match decimal numbers 0.25 and 0.5 with the equivalent fractions 1/4 and 1/2. (VESOL M-4.7)
✗	Subtract whole numbers whose difference is 40 or less. (VESOL M-4.9)
✗	Compare whole numbers and/or fractions with 1/2 or 1/4 using words or symbols. (VESOL M-4.4)
✗	Use a number line to subtract whole numbers, halves, or fourths. (VESOL M-4.12)
✗	Determine which number is closest to the point on a number line. (VESOL M-4.3)
✗	Identify wholes, halves, or fourths from pictures, diagrams, or models. (VESOL M-4.5)
✗	Identify the numeral in the ones place or tens place of a two digit number. (VESOL M-4.2)

Reporting Category	
Measurement and Geometry	
Correct/ Incorrect	Item Descriptor
✓	Identify circles, triangles, squares, and rectangles. (VESOL M-4.20)
✓	Measure weight in pounds. (VESOL M-4.17)
✓	Identify circles, triangles, squares, and rectangles. (VESOL M-4.20)
✓	Tell time to the nearest half hour, including a.m. or p.m. (VESOL M-4.18)
✓	Compare two measurements of length using words or symbols. (VESOL M-4.16)
✗	Measure length in inches or centimeters. (VESOL M-4.16)
✗	Tell time in context, including noon, midnight, a.m. or p.m. appropriately. (VESOL M-4.18)
✗	Determine area using unit squares. (VESOL M-4.15)
✗	Determine area using unit squares. (VESOL M-4.15)
✗	Identify points, line segments, and angles. (VESOL M-4.19)

Reporting Category	
Probability, Statistics, Patterns, Functions, and Algebra	
Correct/ Incorrect	Item Descriptor
✓	Skip count by 2's, 3's, 5's, or 10's. (VESOL M-4.22)
✓	Using a picture or bar graph, interpret and compare data using "more," "less," or the "same". (VESOL M-4.21)
✗	Skip count by 2's, 3's, 5's, or 10's. (VESOL M-4.22)
✗	Using a picture or bar graph, interpret and compare data using "more," "less," or the "same". (VESOL M-4.21)
✗	Using a picture or bar graph, interpret and compare data using "more," "less," or the "same". (VESOL M-4.21)
✗	Skip count by 2's, 3's, 5's, or 10's. (VESOL M-4.22)

The VAAP test is divided into reporting categories that represent related content or skills. The Virginia Essentialized Standards of Learning (VESOL) and performance level descriptors are available on the Virginia Alternate Assessment Program webpage.
