

Virginia Alternate Assessment Program (VAAP) Reports

Pre-ATR Reports and Data Files

Report Name in PearsonAccess ^{next}	Report Location in PearsonAccess ^{next}	Description
OnDemand Reports		
Student List Report	Reports > OnDemand Reports	This report provides results for tests taken by students. Users have the ability to customize this report by adding or removing specific fields through the Manage Columns functionality.
Student List Report (XLS)	Reports > OnDemand Reports	This file is an export of the data in the Student List Report to an Excel file.
Student Detail Reports	Reports > OnDemand Reports	This is a single page report for each test completed by a student. The report includes overall test scaled score and performance level description information. This report may be provided to students, parents, or teachers at the discretion of the division/school.
Student Detail By Question Reports	Reports > OnDemand Reports	This is a single page report for each test completed by a student. The Student Detail By Question Report provides the item descriptors for all questions that were presented to the student during a given test. The report also displays whether the student answered the item correctly or incorrectly.
Student Detail by Question Extract (XLS)	Reports > OnDemand Reports	This file is an export of the data in the Student Detail by Question Report to an Excel file.
Published Reports		
Student Data Extract File	Reports > Published Reports	This file includes all organizational, demographic and assessment record information for all valid test attempts for all students.
Student Detail By Question Reports	Reports > Published Reports	This is a single page report for each test completed by a student. The Student Detail By Question Report provides the item descriptors for all questions that were presented to the student during a given test. The report also shows whether the student answered the item correctly or incorrectly.
Student Detail by Question Extract File	Reports > Published Reports	This file is based on information found in the Student Detail by Question Reports but also includes additional fields (i.e. Group Name, Disability Status, etc.) division or school staff may find useful when aggregating these data. See the VAAP Student Detail By Question Extract Layout for the complete list of data fields.

Virginia Alternate Assessment Program (VAAP) Reports
Pre-ATR Reports and Data Files

OnDemand Reports are student assessment reports generated and presented online at the user's request. Depending on the selected filters, report details vary.
